

WORK EQUIPMENT RISK ASSESSMENT

Hazard	Persons at risk	Existing control	Evaluation of risk	Additional control required
Suitability				
Maintenance				
Inspection				
Specific risks and restrictions on use				
Information, instruction and training				
Conformity with EC requirements				
Dangerous parts of machinery				
Protection against specified hazards				
High or very low temperatures				
Control mechanisms and systems				

Starting controls				
Stop controls				
Emergency stop controls				
Controls				
Control systems				
Isolation				
Stability				
Lighting				
Maintenance operations				
Markings				
Warnings
